

F & S T

FIRE & SAFETY TRAINING LTD

F&ST Breathing Apparatus Services

We can service most makes of breathing apparatus and test them to the manufacturers specifications.

We do this using a PosiCHECK which completes a programmed testing system which either passes or fails the set at each test. The owner of the set gets a printed report of the sets function and any parts or repairs needed for the annual test.

We also provide hiring or replacement of Sets or Cylinders that may be required for businesses and industries needing this safety equipment

Breathing Apparatus, Cylinders and Filling, Escape Sets, Airlines, Masks and filters

Annual tests of equipment

All Breathing Sets should be tested annually and we can do this onsite or at our premises.

Cylinders

We are approved cylinder fillers and can fill cylinders with our compressor. We also can send them to be hydrostatically tested for you.

Hire

We have over 30 BA Sets and 40 Cylinders for training and hiring to industry, Escape sets and an airline system can be use for tricky atmospheric jobs you may have combined with confined space gear.

Sales

With over 40 years experience we can find the correct Breathing Apparatus systems for you at competitive prices.

Escape Sets and Airlines

These we have for sale or hire for engine rooms, confined spaces and sewer lines
