WORKPLACE TRAINING

Confined Space & Gas Detector Course

Fire and Safety Training Ltd offer confined space courses and gas detectors course. Hands on learning using Breathing Apparatus sets and the latest MSA gas detectors.

Course Information

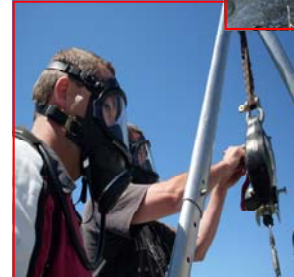

Course Details

We are able to provide NZQA recognised training. Courses can be tailored to companies or individuals needs.

Students will learn about :

- Permit notification & implementation requirements
- Control measures to eliminate, isolate, and minimise the risks
- Monitoring & confined space testing requirement
- Responsibilities & duties entering confined spaces
- Responsibilities or conducting observation duties
- Gain knowledge of gas testing & detection
- Planning a confined space entry

We have purpose built training grounds for training or can train on site.
